

Professors/Administrators View Student Track Progress

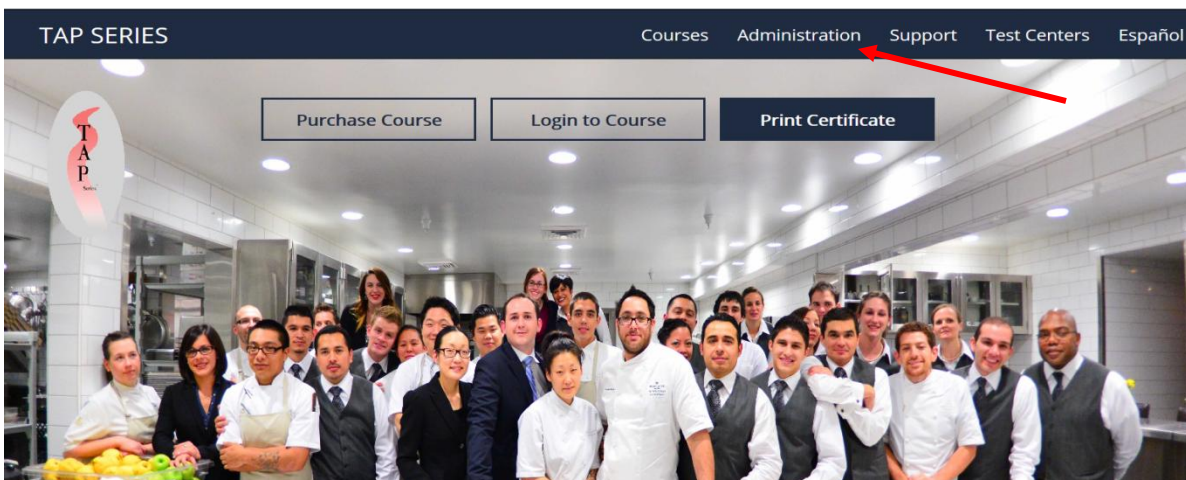

During the original development of TAP's LMS, the Corporate Account's training criteria was established. This criterion sets the number of lessons the students are to study each week and the minimum score they are to achieve on each lesson. If one or both of the criteria has not been achieved, the student will get an automatic email that informs them that they are out of compliance. The instructor will receive an email once a week of all the students who are out of compliance. This report is designed to assist the instructor in helping the students to keep up with the course.

Tracking and updating "Unit" (Class) by Administrators (Instructors)
